Ministry publications prepared by the DEPP

The publications of the Ministry of National Education, Higher Education and Research prepared by the DEPP present complete statistical data from systematic surveys, series of analytical indicators, summary articles, articles on methodology, and results of studies and research: they allow the reader to go beyond the concise data provided in the present document and arrive at a deeper understanding of the French education system.

> *L'état de l'École* (The State of Education)

The main data on the French education system, updated annually. An analytical summary of the costs, activities and results of the school system, from preschool through higher education. International indicators allowing a comparison of France with other countries.

16 euros, Edition no. 16, October 2006.

> *Géographie de l'École* (Geography of the school system)

The main data on the French education system presenting differences in geographic regions. An analysis of the data by académie, region and département, from preschool through higher education.

20 euros, no. 9, May 2005.

> *Repères et références statistiques sur les enseignements, la formation et la recherche* (Statistical points of reference on teaching programmes and branches of study)

Detailed statistics on all areas of the national education system, with clear and concise explanations, definitions, reference documents and an index.

26 euros, September 2006.

> *Les Notes de la DEPP* (DEPP Notes)

– Information Note

Each report takes stock of one of the aspects of the French education system and gives a clear and concise presentation of the conclusions drawn from the latest surveys and studies.

– Evaluation Note

Evaluation reports summarize evaluations focusing on the results of the French education system, as well as its procedures and factors contributing to its effectiveness.

– Research Note

Research reports take stock of certain aspects of French research. They summarize the results of statistical surveys and studies performed or organised by the Bureau of statistical studies on research.
